COUNTY MATTERS.

Major Paddock Blocks a Ditch Scheme-The County Hospital Staff, The county commissioners held a three hours session vesterday afternoon, at which Mr. Paddock took it upon himself to oppose

the construction of the ditch to straighten the Eikhorn river in the vicinity of Water oo, notwithstanding the fact that the property owners, through whose lands the ditch would run, were willing to bear all of the expense of the construction. He succeeded in delaying the matter by having the matter referred to the county attorney, who is to give an opinion as to whether or not the work must proceed in accordance with the provisions of the state ditch law.

The appropriation sheet, providing for the payment of \$19,031, the city's share of the oad, was passed by a unanimous vote, and the county clerk was authorized to draw a warrant for the amount, payable to the city

TOOK THE ADVICE.

Told to Jump Into the River by His Em-ployer, a Chicago Man Does So. CHICAGO, Ill., Oct. 8 .- A. Mortonson of Mortanson & Co., shipping agents, who was sued today for \$50,000 damages by Mrs. Mary W. Christianson, tells a remarkable story in explanation. He says the plaintiff's husband was his cashier. Christianson took to drinking and remonstrances and repeated discharges failed to cure him. "Finally," said
Mr. Mortonson, "I concluded I could
put up with him no longer and
calling him into my office told him
so. I gave him a severe lecture.
I told him he should be ashamed of himself and wound up by saying 'you are so worth-less that 'f I were in your place I would go drown myself. My advice to you is to jump into the river.' I then discharged him and he went home, changed his clothes and came down here to the river and jumped in. His body was not found until next day. I did not for a mement suppose he would be fool-

Domestic soap is the best. Try it. California Homes,

A considerable portion of California is admirably adapted by nature for comfortable homes. There is perhaps no place in the world where a family of oderate means to begin with and of industrious habits can live so easily, enjoying not only the comforts but even he luxuries of life.

Instead of being, as many suppose, a place where only the wealthy can enjoy ife, it is peculiarly adapted to homes of thrifty people who earn their daily bread, and while one without means would undoubtedly find it very difficult to get a start, a man with a small capital can very soon surround himself with luxuries that only the wealthy can enjoy elsewhere.

A small tract of land, ten acres or at most twenty acres, is enough, which can be purchased at a reasonable price if outside of a "boom" district. With intelligence and industry used in planting and cultivating it an income is certain. It should be part orchard and part vineyard. While the trees and vines are being brought into bearing, enough to materially contribute to the maintenance of the family can be grown between the trees, and if the neighborhood has been well selected every member of the family able and willing to work can find pleasant and remunerative labor in orchards and vineyards near by, and minister to the support of the family while acquiring the knowledge and skill necessary to the handling of their own crop.

The third year a considerable return may be expected from the vinoyard, and from a part of the orchard." As the work has all been done within the family, this will be nearly all net income. The next year and thereafter there will be work enough, and raturns enough on the home place.

Costly buildings are not necessary, for the climate is such that in much of the state, life in the open air is entirely pleasant for three hundred days in the

In the coast range of mountains, between San Francisco and Monterey, are many such homes. At first, they were made on the valley land on either side of the range. Year after year they have crept up into the little valleys between the spurs of the foot hill. Then on to the foothill, and in many places clear to the summits. All through they have found excellent soil, good pure water, and everywhere an exceedingly healthful climate. Nestled in these tittle valleys are some of the most delightful places in the world. So mild is the climate that fuchsias and geraniums grow all winter and the family garden is planted in the fall, yielding good crops of peas, potatoes and any semi-hardy vegetables in February.

There is pienty of land equally productive now in the market and at low prices and persons looking for a location for a comfortable home should not fail to visit this promising region. The Santa Cruz division of the South-

Little Johnny Doherty Has Been Missing On the morning of the last day of May, 14year-old Johnny Doherty kissed his mother goodbye and started for school. Since then

he has not been seen or heard from. The lad was unusually bright and was a general favorite at the school he attended and was always well spoken of by his teachers. His parents live at 612 North Fourteenth street and are worried almost to death over the long absence of their son.

Some time ago a neighbor told Mrs. Doberty that she had heard that the boy was in Denver. Acting upon this faint clew Mr. Doberty went to the city on the footnills of the Rockies and remained for several days. He walked the streets day and night, but failed to find the box. out failed to find the boy. The police were given a description of the youngster and promised to look out for him. A circular letter with photograph was also sent to the Rocky mountain detectives, but so far no word has teen received to lighten the load on the mother's heart. Two or three days ago a couple of small poys reported that they had seen Johnny out near the Castellar street school. This rumor was reported to the local police force and the offi cers on beats were constantly on the watch for the young man, but so far he hasn't young man, but so far he hasn't showed un.

The parents are sending photographs to marshals in nearly all of the cities in the west in hopes of locating their child. It is supposed that the boy fell into bad company and ran away with his newly made friends in search of excitement and adventure on the plains and among the mountains. A reward of \$50 is offered by the father for information about his son.

HAD A STORMY PASSAGE.

Trying Voyage of the Facrst Bismarck-

New York, Oct. 8 .- The steamship Fuerst Bismarck arrived today and reports a very rough passage. On the night of October 4 the gale increased to a hurricane and great seas were thrown over the decks. The watch in the fireroom had just been changed and the men who were relieved came on deck for air. They had no sooner appeared above than one great wave boarded the vessel over the bows and swept along in a mighty deluge. In its course it gathered up several men and hurled them about, tossing them against the bulkheads and then picking them up again and hurling them against other objects.

Among those who were caught by the wave was a small boy, a member of the crew, who was dashed with terrific force against a cabin house. He was badly injured, his leg and one arm being broken. Further away were two other firemen. They were swept off their feet and dashed against the bulkhead. Their arms were broken. Three others were also hurt in the same manner, but their injuries are not so serious. None of their limbs were broken, but their inuries necessitated their confinement in the ship's hospital.

Frouble in a College.

CINCINSATI, O., Oct. 8.-An unusual proceeding was witnessed this afternoon in the ousting of the president of a female college from the college building and placing the property in possession of the trustees. The scene was the Wesleyan Female college, widely known among the Methodist denomination. Dr. W. K. Brown, who has held it under lease for ten years, and who sued to have the lease extended, was defeated in court. He appealed, but so far has failed to give bond and this afternoon the sheriff was ordered to remove the president and to give the college into the possession of the trustees. The school was in progress and fifteen or twenty pupils were enrolled. The position of the president puts a sudden stop to the school, as the trustees intend to repair and remodel the building before opening it. There was no scene. Dr. and Mrs. Brown immediately packed their things and pre-pared to leave the building and the trustees

Figures from the Postoffice-The Big Amount of Business It Transacts. Postmaster Giasgow is very much elated over the increase in the volume of pusiness at the postoffice during the first quarter of the present fiscal year, which began July 1. The volume of business transacted by a postoffice is a very safe criterion of the condition of the commercial interests of a city, and shows very clearly what is being done. The people of Souln Omaha can point with pride to the business of their postoffice, and there are very few cities of the same size in the country which can make as flattering a showing.

The gross receipts during the fiscal year ending June 30, 1802, amounted to \$34,835,90. The first quarter the receipts footed up \$10,003.07, the second quarter dropped to \$7,108,05, the third quarter was \$8,823,27, and the fourth quarter \$5.574.31. The receipts for the first quarter of the present fiscal year amounted to \$11,937.93, an increase over the largest quarter of the preceding year of nearly \$2,000 and over the smallest quarter The force consists of Postmaster Glasgow,

his assistant, two mairing clorks, a distributing clerk and delivery clerk and five carriers. The force is very hardly worked to handle the mail matter, and there is very little idleness thereabouts. During the last fiscal year there were is-sued 2,521 domestic money orders and 200

international. The postal notes issued num-bered 1,674 and the letters and parcels registered, 1,540. During the first quarter of the present fiscal year the number of domestic orders issued was 785 and international 107. Letters and parcels registered numbered The expenses of conducting the office for

the last fiscal year amounted to \$10,538,15, leaving the net receipts forwarded to the as-sistant United States treasurer at Chicago \$24,297,75. The expenses incurred during the first quarter of the present year amounted to \$3,002.01, leaving the net receipts at \$5,935.92.

If the increase during the remaining three-

quarters continues correspondingly with the first quarter of the present fiscal year the volume of business at the postoffice will be several thousand dollars greater than during the preceding year. Every indication is that such will be the case.

WHAT THE JURORS THOUGH?

Cases That Have Been Passed Upon in the District Court.

THREE MEN GO TO THE PENITENTIARY

Henry May and Tom Murray Found Juries

That Would Not Agree and Peter Edquist Failed to Recover Damages for a Broken Nose.

The several divisions of the district court devoted a few hours to the transaction of business yesternay morning and then ad-journed until Monday morning. William Brady stood up and took a

five years' sentence without a murmer. Brady was the man who did business when Barnum's circus was la town. On that day he snatched a lady's purse just no she was boarding a down town motor. The lady held to him for some time, begging for assistance, but nove of the passengers of the car cared to help her hold the light-flugered fellow. At last, somewhat disgusted, she asked, "Is there a man on this car!" Some twenty or thirty members of the male family who were watching the proceedings pulled their heads down into their coat collars, but refused to answer. The woman stood her ground, and continuing with the remark, "Some of you wear pants, but I guess you are not men," marched Mr. Brady away and turned him over to the pitce.

Thomas Shaw and F. R. Wolf, the two men who were convicted of getting away with a lot of goods belonging to the Adam

to terms of two years. These Juries Couldn't Agree. In the case of Henry May, the young man

who was charged with having stolen a lot of goods from Hayden Bros., the jury failed to agree and was discharged, after being our twenty-four hours. The last ballot stood seven for conviction and five for acquittal. May was remanded to just until such time as he could furnish \$1,500 bail bonus.

There was also a disagreement in the carof Amanda Garlick against Thomas Murra In this case the plaintiff sought to recove,

Peter A. Edquist will never get anything for that nose which he lost by having it come in contact with a motor pole on the East Omaha line. He was riding on that line, and while looking out of the car window a pole took off part of his proboscis. He thought that the car company should pay him \$1,000 damages, but the jury found for

the defendant, Lawyer Davis Saves His Reputation. The charges against Lawyer John P. Davis have been purged, and Mr. Davis comes out with nothing more serious than a

Some time ago Davis was accused of unprofessional conduct as an attorney, in that he misled Judges Irvine and Hopewell in cases that were on trial before them, The matter was referred to a bar committee, and an investigation followed. This morning the committee reported that the facts were true, but that Davis explained that he did so ignorantly, and without any intention of misicading the court.
In the case of John Flannigan against. Jacob Elton, which has been on trial in Judge Ferguson's court during the past week, the jury vesterday afternoon returned

a verdlet for the plaintiff and assessed his damage at 5 cents. This judgment gives the old colored man possession of the land in controversy. Marriage Licenses, The following marriage licenses were issued by County Judge Eller yesterday: Name and address. 30
